Anubhav Giri

Head of Analytics | Strategy, Operations & Revenue Optimization |
Turning Data into Business Outcomes
India

Summary

I deliver data-driven business analysis and customer-centric solutions that fuel digital transformation and growth.

With over 4 years of experience, I specialize in e-commerce innovation, process optimization, and API integration. I don't focus on unnecessary theory—I drive real, measurable results by optimizing business processes, enhancing customer experiences, and streamlining operations through smart technology integration.

Here's how I make an impact:

Boosted Customer Retention by 30% through CRM and ERP optimization at Pg On Palm, aligning business goals with customer needs.

Increased Monitoring Accuracy by 40% for high-profile government projects at AigenEdge, delivering secure and scalable video surveillance APIs.

Enhanced User Engagement by 25% by implementing customer-centric features for NFT-based e-commerce platforms at VA Labs. Led the expansion of Moyyn's AI-driven recruitment platform in India, improving recruiter efficiency by 30% with custom API solutions. I thrive on collaboration with cross-functional teams and turning complex problems into streamlined, impactful solutions. Let's connect to see how I can help your business optimize processes and drive digital growth.

Experience

Bluwheelz

1 year

Head of Analytics

December 2025 - Present (6 months)

Gurugram

Leading analytics as a strategic function, driving decision-making across operations, revenue, and fleet performance.

Partnering with leadership to define KPIs, uncover growth levers, and guide business strategy.

Translating complex data into clear, actionable insights that influence cross-functional execution.

Building scalable data systems and dashboards to improve visibility, accountability, and performance tracking.

Enterprise Sales Manager

June 2025 - Present (1 year)

Gurugram, Haryana, India

Moyyn

Product Management Trainee

May 2024 - January 2025 (9 months)

Moyyn is an AI based recruitment automation platform and a digital training academy

(GATE) with the mission of bridging the skill gaps in companies and equipping talent

with skills required to excel in their career.

During my tenure as a Product Management Trainee at Moyyn, I completed a rigorous

4-week training program that provided me with a strong foundation in product management. I had the opportunity to work on a challenging hands-on project, collaborating with a talented team to solve real-world problems. This experience honed

my skills in market research, user-centered design, ICP and Personas, MVP creation,

agile methodologies, and data-driven decision-making.

Recruiting Up

Business Development Intern

April 2023 - August 2023 (5 months)

Germany

Aigenedge

Junior Product Manager

August 2020 - October 2021 (1 year 3 months)

Noida, Uttar Pradesh, India

Contributed to the development of video surveillance APIs for high-profile government projects, including real-time attendance tracking for some high sensitive Pilgrim sites, improving monitoring accuracy by 40%.

- Worked closely with engineering and product teams to design custom APIs for guest management at government and semi-government institutions, enhancing visitor security and operational efficiency.
- Assisted in defining product roadmaps and balancing short-term customer needs with long-term strategy, leading to a 25% increase in API adoption by government stakeholders.
- Played a key role in tracking product metrics and reporting on progress, ensuring projects were completely delivery-oriented and met deadlines ahead of schedule by 2 weeks.

Pgonpalm.Com

Growth Manager

December 2018 - August 2020 (1 year 9 months)

Delhi, India

Joined Pgonpalm.com, a platform for students and working people to get accommodations. We also changed the way students used to live by providing customized living experiences so that they don't worry about their daily needs like food, housekeeping, etc. and get all the time for studies, fun or whatever they want to do.

- Market Research and Analysis in order to find new potential customers for substantial expansion.
- Managed different stake holders from Investors, suppliers and inbound team to customers through strategy and technology such as CRM tools, Project management tools.
- Developed and implemented Microsoft dynamics 365, salesforce and other cloud based technologies for the organization leading to 65% increase in efficiency and data security.
- Helped in development of saas(ERP) for hostel and house owners to give them seamless experience of managing properties through mobile apps.

DialDent

Business Analyst

October 2017 - September 2018 (1 year)

Delhi, India

- Worked with product management team in ideation and validation for different offerings for B2B and B2C segments.
- Responsible for business development, making sales pitch, process improvements using CRM tools, linkedin and other online/offline marketing channels to generate leads.
- Responsible for making sales and marketing presentations.
